How can we avoid getting infected with corona virus?

---

---
My friend, to protect yourself from corona infection you have to follow these advices

1. When you cough or sneeze, cover your mouth or nose with a tissue, or bend your arm if possible

2. Do not touch your eyes, nose, or mouth unless you have washed your hands

3. Wash your hands with soap and water for at least 20 seconds

4. Keep your personal items clean

5. Do not touch people who are sick, and deal with them in kindness

6. Avoid large, crowded places

7. Make sure the place is well ventilated
Could you please take me to the water tap to wash my hands

(You can find solution on the page 28)
Three ways to reduce infection through coughing and sneezing

Wash your hands with soap and water for twenty seconds
Use a tissue or use your elbow by bending the arm
Keep your hands sterilized and throw the tissues away after using them
Color the picture
Remember

When you cough or sneeze, use a new tissue and throw it away in the trash basket.

If you don't have a tissue, sneeze into your inner elbow and change into clean clothes.
What is the magical way to avoid the corona virus infection?

It is by washing hands in the right way and keep clean.
How should I wash my hands?

1. Distribute the soap on my hands
2. Rub the hands
3. Rub the hands with Clips fingers together
4. Place the right and left fingers together and Rub the back of the fingers
5. Rub the thumbs with the hand
6. Rub the right hand in a circular motion so that its fingers clamp with the left hand and vice versa
7. Dry your hands and close the tap with a tissue
When should I wash my hands

1. Before and after eating
2. After coughing or sneezing
3. After touching any unclean surface
4. When it gets dirty
5. After getting out of the bathroom
6. After playing with or touching animals
Here are some things you can do while washing your hands

Review out loud something that you have learned.

Sing a song you like.

Sing the ABCs.
My friends

Please adhere to these advices and remember

If you feel ill, tell your parents and stay home. Open the windows to ventilate the room, and use special hygiene to stay clean!
Should I fear the corona virus?

Many people fear infection with this virus, and this is normal. But keep in your mind that if you Adhere to previous advices, you will protect yourself and your family and be confident that you will always be able to overcome this virus.

Don't make fun of sick people around you and don’t disturb / bother them. Remember that the virus has no geographical limits and it is not limited to a specific age groups or certain people.

What can I do on vacation

Color the picture below
What can I do on vacation

You can read your favorite book and draw or sing about it. You may also have reading sessions with your family or friends, and share what you've learned with one another.

What kind of books you prefer to read?
What can I do on vacation

You can play football with your parents, your sisters and brothers

Color the picture below
What can I do on vacation (in holiday)

Do you have a garden at home or planted packages? Try to meditate and water these plants after ask your parents for permission.
A message to my parents. Please pass on to others:

1. Remember, infection with coronavirus is not so scary as many infected people have recovered completely.

2. School holidays are not to hinder your children's educational process, but rather to limit the spread of the virus which is good for all of us.

3. Don’t forget to wash your hands well and clean your home and members of family, this is important.

4. Clean the fruits and vegetables well before eating.

5. Don’t eat the raw or uncooked food it must be cooked well.

6. Each family member should have his own cleaning tools and Special food equipment too.

7. Give your children the opportunity to communicate with their friends online. They do not meet them nowadays.

8. Determine a time to speak and play with your children. It will definitely be fun and enjoyable for them.

9. Avoid rumors, they are common these days.

10. Finally, don’t forget to help your children in what they request from you, they may need your advice and support.
You could watch these videos about coronavirus prevention

1. Preventing coronavirus through washing the hands by following seven steps
2. Coronavirus
3. Children's educational (awareness) cartoon film about the risks and symptoms of Coronavirus

All you have to do is open the mobile camera and direct it to the code then the video will open automatically.

Choose the preferred video.
Stay Safe

Goodbye
